REPORT OF THE SELECTMEN

1987 was an extremely rewarding year to be a selectman in Hancock, New Hampshire.

We presided over a complete reappraisal of the town, the result being a fair and equal tax assessment for all properties.

Hancock is now on line with the purchase of an IBM PCAT computer. The computer is a long over due necessity for keeping tax records and voting lists.

Wendy Brennan was hired this year to "assist the assistants" in both the Selectmen's office and Town Clerk's office, Wendy has been a big help in getting through the mountains of paper work generated by a growing town.

The Fire Department has been updating its equipment over the last ten years, and through a letter of appeal has raised over \$22,000 for a new rescue truck. Thanks to the letter of appeal, other fund raising projects, and many volunteer hours, Hancock boasts one of the finest Fire Departments anywhere and at very little cost to the tax payers.

Perhaps the Highway Department has gone through the most change in the past year. Starting under the leadership of former Road Agent, Joe Hugron, and continuing under the reins of Hancock's new Road Agent, Andy Tessier, the department will be playing a more active roll in other town departments. Already the Highway Department has taken over jobs once done by private contractors in the landfill, in the Water Department, and on some town roads. Andy also plans to take over cemetery maintenance and do some of the work at the town beach this spring.

Buildings were a big issue in 1987. The post office celebrated its' first year in its new home (the former Grange building).

In November, the Selectmen called a special Town Meeting to see if the town would be interested in swapping its Town Office Building with the Conval School District for the Elementary School Building. The voters gave the go ahead for the Selectmen to investigate the swap. The matter is still under study.

The library will be going ahead with its' expansion plans this coming year. The opportunity presented itself for the purchase of the Danielsen property behind the library. The acquisition of this piece of property will make the planned expansion easier and less costly than originally anticipated.

1987 was indeed a busy year for the Selectmen and their staff, and as Hancock continues to grow, so will the work load. We are grateful for those who volunteer for the boards and committees. Without this volunteer help, the jobs could not be done.

George Lohmiller
For The Selectmen

TOWN WARRANT
THE STATE OF NEW HAMPSHIRE

To the Inhabitants of the Town of Hancock in the County of Hillsborough in said State qualified to vote in Town Affairs: You are hereby notified to meet at the TOWN HALL in said Hancock on Tuesday, the eighth day of March next at 10 of the clock in the forenoon for ballot voting of Town Officers and all other matters requiring ballot vote; and, to meet at said FIRE STATION in said Hancock on Saturday, the twelfth day of March next at one of the clock in the afternoon, to act upon the following subjects:

1. To choose all necessary Town Officers for the year ensuing.
2. To raise such sums of money as may be necessary to defray town charges for the year ensuing.
3. Are you in favor of adopting the following (new definition and new section) as proposed by the planning board for the town zoning ordinance as follows: HOME-BASED BUSINESS, means the use of property by the resident for conducting some aspect of a business or profession the primary aspects of which are conducted at another location.
HOME-BASED BUSINESS: The Board of Adjustment may grant special exceptions to allow home-based businesses in the residential and the agricultural and rural districts, provided that the proposed use meets the conditions listed below. No special exception shall be required for those home based businesses which have no visible, audible, traffic-creating, or other noticeable effect of the community.
 1. The use will be clearly incidental and secondary to the residential use of the property, and will not alter the general character of the neighborhood or reduce the values of surrounding properties.
 2. The use will not have an adverse effect on the environment or surrounding properties as a result of noise, odors, smoke, dust, lights, soil, water or air pollution, excessive increases in traffic or in parking requirements, or as a result of other nuisances.
 3. There will be no outdoor display of goods, and no outdoor storage of materials or equipment unless screened from roads and surrounding properties by natural or structural means to such extent and in such manner as may be specifically determined by the Board of Adjustment.
 4. The residence or associated buildings shall not provide window displays or other characteristics or features normally associated with commercial use.
 5. There will be no change in the exterior appearance of the residence or other structures on the property as a result of the use, unless specifically approved or required by the Board of Adjustment.
4. To see if the Town will vote to raise and appropriate forty two thousand two hundred dollars (\$42,200.00) for a backhoe with attachments. This money to be raised by bonds or notes in accordance with the provisions of the municipal finance act; or take any other action relating thereto. BALLOT VOTE
5. To see if the Town will raise and appropriate the sum of fifty one thousand nine hundred twenty four dollars (\$51,924.00) for a dump truck equipped with plow, sander and radio. This money to be raised by bonds or notes in accordance with the provisions of the municipal finance act; or take any other action relating thereto. BALLOT
6. To see if the Town will raise and appropriate the sum of eighty five thousand dollars (\$85,000.00) for the purchase and outfitting of a new tank truck for the fire department. This money to be raised by bonds or notes in accordance with the provisions of the municipal finance act; or take any other action relating thereto. BALLOT

7. To see if the Town will vote to re-convey the property shown on the town tax map R-15, lot 15A, for the sum of \$7,900.00. to James C. and Gaye D. Tillinghast; or take any other action relating thereto.
8. To see if the Town will vote to rescind the authorization created at the 1987 Town meeting under Article 14 in the amount of \$1,000.00; or take; any other action relating thereto.
9. To see if the Town will vote to raise and appropriate one hundred dollars (\$100.00) for the support of the Grand Monadnock Arts Council; or take; any other action relating thereto.
10. To see if the Town will vote to raise and appropriate two thousand dollars (\$2,000.00) to restore certain old town records of births, deaths and marriages; or take any other action relating thereto.
11. To see if the Town will vote to authorize the selectmen to convey property acquired by the town by tax collector's deed at public auction, or advertised sealed bid, or in such other manner as determined by the selectmen as justice may require; or take any other action relating thereto.
12. To see if the Town will adopt the provisions of RSA 80:58-86 for a real estate tax lien procedure. These statutes provide that tax sales to private individuals for nonpayment of property taxes on real estate are replaced with a real estate tax lien procedure under which only a municipality, or county where the property is located, or the State may acquire a tax lien against land and buildings for unpaid taxes; or take any other action relating thereto. BALLOT
13. To see if the Town will vote to establish the selectmen as the franchising authority subject to the provisions of RSA 53:C with authority to grant franchises for the installation and operation of cable television systems within the town and to establish fees and other conditions for such franchises and to exercise all other authority granted by RSA 53:C; or take any other action relating thereto.
14. To see if the Town will vote to establish a general fund trust pursuant to RSA 31:19-a for the care and maintenance of public cemeteries; or take any other action relating thereto.
15. To see if the Town will raise and appropriate the sum of one thousand dollars (\$1,000.00) to resurface the double tennis courts. This amount to be reduced by any donations received for this purpose; or take any other action relating thereto.
16. To see if the Town will raise and appropriate the sum of one thousand three hundred fifty dollars (\$1,350.00) to support the Mental Health Program of the Monadnock Family and Mental Health Services; or take any other action relating thereto.
17. To see if the Town will vote to appropriate to the general fund trust established under RSA 31:19-a, \$125.00 received from the sale of cemetery lots and \$1,000.00 received for the maintenance of public cemeteries; or take any other action relating thereto.
18. To see if the Town of Hancock will vote to raise and appropriate nine thousand four hundred twenty two dollars (\$9,422.00) for the projected cost of the upgrading of Hicks Road to meet the specifications of the planning board, and to apply the deposit from the developer, in the amount of \$5,559.00 against this appropriation; or take any other action relating thereto.

19. To see if the Town of Hancock will vote to raise and appropriate the sum of four hundred fifty dollars (\$450.00) for St. Joseph Community Services, Inc.; or take any other action relating thereto. (By Petition)
20. To see if the Town will vote to authorize the Board of Selectmen to apply for, receive and expend Federal and State grants which may become available during the course of the year, in accordance with RSA 31:95-B and also to accept and expend money from any other governmental unit or private source to be used for purposes for which the town may legally appropriate money; or take any other action relating thereto.
21. To see if the Town will vote to discontinue that section of the Class VI road, along William Weston's property, from the northerly edge of the right of way to tax map R-13, lot 13, northerly to the southerly boundary of tax map R-13, lot 15; or take any other action relating thereto.
22. To see if the Town will vote to establish, as a town committee, the Hancock Land Protection Task Force, appointed by the selectmen, to work in an advisory capacity only to the Hancock Conservation committee in order to develop a list of land parcels or land easements for possible acquisition by the Town of Hancock under or relating to the Land Conservation Investment Program (LCIP) of the State of New Hampshire; and to prepare the necessary application documents for specific acquisitions. This committee will be limited in life to the life span of the said New Hampshire Land Conservation Investment Program; or take any other action relating thereto.
23. To see if the Town will authorize the selectmen to accept private donations of land, interest in land, or money to be deposited into the conservation fund, for the purposes of contributing to the local matching portion required for acquiring conservation land, or interest in land, and other costs associated therewith for permanent conservation use under the N.H. Land Conservation Investment Program (LCIP) RSA 221-A; and authorize the selectmen to apply for and accept the State matching funds under the LCIP for the purposes of acquisition of the fee or lesser interest in conservation land. Said appropriated or donated funds and State matching funds may be expended by the selectmen upon majority vote of the conservation commission; or take any other action relating thereto.
24. To see if the Town will adopt the provisions of RSA 72:1-c which authorizes any town or city to elect not to assess, levy and collect a resident tax; or take any other action relating thereto.
25. To see if the Town will accept gifts and legacies left in trust for the Town; or take any other action relating thereto.
26. To hear the reports of auditors and committees heretofore chosen; or take any other action relating thereto
27. To authorize the selectmen to borrow money in anticipation of taxes; or take any other action relating thereto.
28. To transact any other business that may legally come before said meeting.

Given under our hands and seal, this fifteenth day of February, in the year of Our Lord nineteen hundred and eighty eight.

George R. Lohmiller, Robert G. Quinlan, Marian R. Harrington

SUMMARY 1987 TOWN MEETING MINUTES

- ARTICLE 1: Town Officers elected by ballot March 10, 1987.
ARTICLE 2: Budget accepted in ammount of \$568,545.
ARTICLE 3: Zoning amendment by ballot: Yes 296; No 36.
ARTICLE 4: Zoning amendment by ballot: Yes 309; No 30.
ARTICLE 5: Zoning amendment by ballot: Yes 296; No 36.
ARTICLE 6: Building Ordinance amendment by ballot: Yes 282; No 57.
ARTICLE 7: Building Ordinance amendment by ballot: Yes 272; No 54.
ARTICLE 8: Building Ordinance amendment by ballot: Yes 316; No 42.
ARTICLE 9: Building Ordinance amendment by ballot: Yes 252; No 94.
ARTICLE 10: Building Ordinance amendment by ballot: Yes 292; No 48.
ARTICLE 11: Building Ordinance amendment by ballot: Yes 265; No 68.
ARTICLE 12: Building Ordinance amendment by ballot: Yes 248; No 54.
ARTICLE 13: Building Ordinance amendment by ballot: Yes 303; No 32.
ARTICLE 14: Approved \$48,000 for new loader: ballot: Yes 123; No 7.
ARTICLE 15: Approved \$18,500 for broom attachment to loader: Yes 95; No 38.

AUDITOR'S REPORT ON FINANCIAL PRESENTATION

To the Members of
the Board of Selectmen
Town of Hancock
Hancock, New Hampshire

We have examined the general purpose financial statements of the Town of Hancock as of and for the year ended December 31, 1987, as listed in the table of contents. Our examination was made in accordance with generally accepted auditing standards and, accordingly, included such tests of the accounting records and such other auditing procedures as we considered necessary in the circumstances.

As described in Note 13, the general purpose financial statements referred to above do not include the General Fixed Asset Group of Accounts, which should be included to conform with generally accepted accounting principles. The amount that should be recorded in the General Fixed Assets Account Group is not known.

In our opinion, except that omission of the General Fixed Asset Group of Accounts results in an incomplete presentation, as explained in the above paragraph, the general purpose financial statements referred to above present fairly the financial position of the Town of Hancock at December 31, 1987, and the results of its operations for the year then ended, in conformity with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

Our examination was made for the purpose of forming an opinion on the general purpose financial statements taken as a whole. The combining and individual fund financial statements listed in the table of contents are presented for purposes of additional analysis and are not a required part of the general purpose financial statements of the Town of Hancock. Such information has been subjected to the auditing procedures applied in the examination of the general purpose financial statements and, in our opinion, is fairly stated in all material respects in relation to the general purpose financial statements taken as a whole.

January 14, 1988

TOWN OF HANCOCK

NOTES TO THE FINANCIAL STATEMENTS

DECEMBER 31, 1987

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The following is a summary of significant accounting policies employed in the preparation of these financial statements.

A. *Fund Accounting*

The accounts of the Town are organized on the basis of funds or account groups, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, fund equity, revenues, and expenditures, as appropriate. Government resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled. The various funds are grouped by type in the financial statements. The following fund types and account groups are used by the Town:

GOVERNMENTAL FUNDS

General Fund - The General Fund is the general operating fund of the Town. All general tax revenues and other receipts that are not allocated by law or contractual agreement to another fund are accounted for in this fund. From the fund are paid the general operating expenditures, the fixed charges, and the capital improvement costs that are not paid through other funds.

Special Revenue Funds - Special Revenue Funds are used to account for the proceeds of specific revenue sources (other than expendable trust or major capital projects) requiring separate accounting because of legal or regulatory provisions or administrative action.

Capital Projects Funds - Transactions related to resources obtained and used for the acquisition, construction, or improvement of capital facilities are accounted for in Capital Projects Funds. Such resources are derived principally from proceeds of long-term notes or bonds and from donations.

FIDUCIARY FUNDS

Trust and Agency Funds - Trust and Agency Funds are used to account for the assets held in trust or as an agent for others by the Town. The Nonexpendable and Expendable Trust Funds (which include Capital Reserve Funds) and Contractors and Developers Performance Bonds Funds, are shown in this fund type.

TOWN OF HANCOCK

NOTES TO THE FINANCIAL STATEMENTS

/ DECEMBER 31, 1987

B. Account Groups (Fixed Asset and Long-Term Liabilities)

All governmental funds are accounted for on a spending or "financial flow" measurement focus. This means that only current assets and current liabilities are generally included on their balance sheets. Their reported fund balance (net current assets) is considered a measure of "available spendable resources". Governmental fund operating statements present increases (revenues and other financing sources) and decreases (expenditures and other uses) in net current assets. Accordingly, they are said to present a summary of sources and uses of available spendable resources during a period.

General fixed assets have been acquired for general governmental purposes and have been recorded as expenditures in the fund making the expenditure. These expenditures are required to be capitalized at historical cost in a General Fixed Asset Group of Accounts for accountability purposes. In accordance with the practices followed by other municipal entities in the State, the Town does not maintain a record of its general fixed assets and, accordingly, a statement of general fixed assets, required by generally accepted accounting principles, is not included in this financial report.

Long-term liabilities expected to be financed from governmental funds are accounted for in the General Long-Term Debt Account Group. This account group is not a fund. It is concerned only with the measurement of financial position and not results of operations. Since they do not affect net current assets, such long-term liabilities are not recognized as governmental fund type liabilities. They are instead reported as liabilities in the General Long-Term Debt Account Group.

C. Basis of Accounting

The accounts of the General, Special Revenue, Capital Projects, Expendable Trust, and Agency Funds are maintained and reported on the modified accrual basis of accounting. Under the modified accrual basis of accounting, sources of financial resources and assets are recognized when measurable and available to finance operations during the year. Uses of financial resources and liabilities are recognized when obligations are incurred from receipt of goods and services, when assessments are made by the State or, in the case of judgments and claims against the Town, when there is a probability that such judgments and claims will result in liabilities, the amounts of which can be reasonably estimated. Exceptions to this general rule include: 1) accumulated unpaid vacation and sick pay, and 2) principal and interest on general long-term debt which is recognized when due. All Nonexpendable Trust Funds are accounted for using the accrual basis of accounting.

TOWN OF HANCOCK

NOTES TO THE FINANCIAL STATEMENTS

DECEMBER 31, 1987

D. *Budgetary Accounting*

General governmental revenues and expenditures accounted for in budgetary funds are controlled by a formal integrated budgetary accounting system in accordance with various legal requirements which govern the Town's operations. State Statutes require balanced budgets but provide for the use of beginning general fund unreserved fund balance to achieve that end. In 1987, the beginning fund balance was applied as follows:

Unreserved Fund Balance	
Used To Reduce Tax Rate	\$14,892
Beginning Fund Balance -	
Reserved For Encumbrances	<u>2,327</u>
Total Use of Beginning Fund Balance	<u>\$17,219</u>

E. *Encumbrances*

Encumbrance accounting, under which purchase orders, contracts, and continuing appropriations (certain projects and specific items not fully expended at year end) are recognized, is employed in the governmental funds. Encumbrances are not the equivalent of expenditures and are therefore reported as part of the fund balance at December 31, 1987 and are carried forward to supplement appropriations of the subsequent year.

The General Fund reserve for encumbrances at December 31, 1987 is detailed in Exhibit A-2 and totals \$20,817.

F. *Cash and Investments*

At year end, the carrying amount of the Town's deposits was \$1,177,399 and the bank balance was \$1,014,372. Of the bank balance, \$319,235 was covered by Federal depository insurance and \$695,137 was uninsured.

State Statutes authorize the Town to invest excess funds in the custody of the Treasurer, in obligations of the United States Government, in savings bank deposits of banks incorporated under the laws of the State of New Hampshire, or in certificates of deposit of banks incorporated under the laws of the State of New Hampshire, or in national banks located within this State or the State of Massachusetts. These financial statements report investments in certificates of deposit and savings bank deposits under the caption Cash and Equivalents.

The Town is further authorized to invest Trust Funds in obligations of political subdivisions and stocks and bonds, as they are legal for investment by New Hampshire savings banks. Capital Reserve Funds must be kept separate and not intermingled with Trust Funds. Capital Reserve Funds may be invested only in savings bank deposits of New Hampshire banks, or in United States or State of New Hampshire bonds or notes.

TOWN OF HANCOCK

NOTES TO THE FINANCIAL STATEMENTS

DECEMBER 31, 1987

Investments in all instances are stated at cost or, in the case of donated investments, at market value at the time of bequest or receipt. Investments at year end are as follows:

	<u>Carrying Amount</u>
Marketable Securities	<u>\$152,024</u>

G. *Accumulated Unpaid Vacation and Sick Pay*

The Town does not have a formal sick leave policy. One week of vacation is granted after a year of service and two weeks thereafter. Vacation pay accumulation does not exceed a normal year's allowance.

H. *Inventories*

Inventory in the General and Special Revenue Funds consists of expendable supplies held for consumption. The cost thereof has been recorded as an expenditure at the time individual inventory items were purchased.

I. *Taxes Collected For Others*

The property taxes collected by the Town include taxes levied for the Contoocook Valley School District and Hillsborough County which are remitted to these governmental units as required by law. The ultimate responsibility for the collection of taxes rests with the Town.

J. *Property Taxes*

The National Council on Governmental Accounting, Interpretation 3, referring to property tax revenue recognition, requires disclosure if property taxes receivable, which are to be collected beyond a period of 60 days subsequent to year's end, are recognized on the balance sheet and not reserved. In accordance with the practice followed by other municipal entities in the State of New Hampshire, the Town of Hancock annually recognizes, without reserve, all taxes receivable at the end of the fiscal year. The Town feels this practice of accrual is justified, as it more appropriately matches the liability to the school district entity at December 31 with collections which are intended to finance these payments through June 30 of the following year.

Annually, the Town establishes and raises through taxation an amount for abatements and refunds of property and resident taxes, known as overlay. All abatements and refunds are charged to this account. The amount raised in 1987 was \$2,265 and expenditures amounted to \$9,465.

As prescribed by law, the tax collector sells at tax sale all uncollected property taxes in the following year after taxes are due. The purchaser at tax sale has a priority tax lien on these properties and accrues

TOWN OF HANCOCK

NOTES TO THE FINANCIAL STATEMENTS

DECEMBER 31, 1987

interest at 18% per annum. Delinquent taxpayers must redeem property from tax sale purchasers.

Property is sold to the party who will accept a lien for the least undivided interest in the property for payment of taxes and related costs due. If property is not redeemed within the two-year redemption period, the property is tax-deeded to the lien holder.

K. Interfund Transactions

During the course of normal operations, the Town has numerous transactions between funds, including expenditures and transfers of resources to provide services and fund capital outlay. The accompanying governmental and fiduciary fund financial statements reflect such transactions as transfers.

L. Interfund Receivable and Payable Balances

Individual fund interfund receivable and payable balances at December 31, 1987 were as follows:

<u>Fund</u>	<u>Interfund Receivables</u>	<u>Interfund Payables</u>
General Fund	\$ 778	\$4,847
Special Revenue Fund	<u>4,847</u>	<u>778</u>
<u>Totals</u>	<u>\$5,625</u>	<u>\$5,625</u>

NOTE 2 - CHANGES IN LONG-TERM DEBT

The following is a summary of long-term debt transactions of the Town for the fiscal year ended December 31, 1987.

	<u>General Obligation Debt</u>
Long-Term Debt Payable January 1, 1987	\$446,050
New Debt Incurred	103,500
Long-Term Debt Retired	(<u>54,355</u>)
Long-Term Debt Payable December 31, 1987	<u>\$495,195</u>

TOWN OF HANCOCK

NOTES TO THE FINANCIAL STATEMENTS

DECEMBER 31, 1987

Long-term debt payable at December 31, 1987 is comprised of the following individual issues:

General Obligation Debt

\$117,000 Camp Guild Property Notes due in annual installments of \$7,800 through August 20, 1989; interest at 5.50%	\$ 15,600
\$120,000 Post Office Notes due in annual installments of \$8,000 through March 28, 2001; interest at 7.60%	112,000
\$65,000 Highway Garage Notes due in annual installments of \$6,500 through July 11, 1989; interest at 6.00%	13,000

--------------	------------------

TOWN OF HANCOCK

NOTES TO THE FINANCIAL STATEMENTS

DECEMBER 31, 1987

The annual requirements to amortize all debt outstanding as of December 31, 1987, including interest payments, are as follows:

Annual Requirements To Amortize Long-Term Debt

Fiscal Year Ending December 31	General Obligation Debt		
	Principal	Interest	Total
1988	\$ 77,855	\$ 33,953	\$111,808
1989	74,355	28,619	102,974
1990	107,555	23,775	131,330
1991	50,555	12,608	63,163
1992	46,975	10,035	57,010
1993-2001	137,900	29,901	167,801
<u>Totals</u>	<u>\$495,195</u>	<u>\$138,891</u>	<u>\$634,086</u>

All debt is general obligation debt of the Town, which is backed by its full faith and credit.

NOTE 3 - DEFINED BENEFIT PENSION PLAN

The Town's police chief participates in the New Hampshire Retirement System, a multiple-employer public employee retirement system. The payroll for the employee covered by the system for the year ended December 31, 1987 was \$30,675; the Town's total payroll was \$204,039.

All Town full-time employees are eligible to participate in the system. Employees who retire before age 65 are entitled to a retirement benefit equal to approximately fifty percent of the employee's average final compensation. After attainment of age 65, the payment by the Retirement System is reduced by the amount of the individual's Social Security entitlement payments. The system also provides death and disability benefits which are established by State Statute.

The covered employee contributes 9.3% of his salary to the plan. The Town is required by the same statute to contribute a percentage of the employee's salary, based on an actuarial valuation of the entire State plan performed June 30, 1983. These contributions represented 7.74%. The contribution requirements for the year ended December 31, 1987 were \$5,227, which consisted of \$2,374 from the Town and \$2,853 from the employee.

The "pension benefit obligation" is a standardized disclosure measure of the present value of pension benefits, adjusted for the effects of projected salary increases and step-rate benefits, estimated to be payable in the future as a result of employee service to date. The measure, which is the actuarial present value of credited projected benefits, is intended to help users assess the system's funding status on a going-concern basis, assess progress made in

TOWN OF HANCOCK

NOTES TO THE FINANCIAL STATEMENTS

DECEMBER 31, 1987

accumulating sufficient assets to pay benefits when due, and make comparisons among retirement systems and employers. The State retirement system does not make separate measurements of assets and pension benefit obligations for individual employers. According to plan administrators, the pension benefit obligation at June 30, 1986 for the system as a whole, determined through an actuarial valuation performed as of June 30, 1985, was \$552,050,000. The system's net assets available for benefits on that date (valued at market) were \$568,786,602, leaving no unfunded pension benefit obligation. The percentage that the Town of Hancock has in relation to the entire plan cannot be determined.

NOTE 4 - TRUST FUNDS

The principal amount of all Nonexpendable Trust Funds is restricted either by law or by terms of individual bequests in that only income earned may be expended. The Town's Nonexpendable and Expendable Trust Funds at December 31, 1987 are detailed as follows:

<u>Purpose</u>	<u>Nonexpendable</u>	
	<u>Principal</u>	<u>Income</u>
Support of Schools	\$ 74,070	\$
Support of Library	120,946	47
Cemetery Perpetual Care	37,031	10,386
Care of Parks and Common	10,217	13,948
Scholarship Funds	7,472	
Benefit of Town Poor	1,000	119

AUDITOR'S OPINION

Members of the Board of Selectmen
Town of Hancock
Hancock, New Hampshire

In accordance with the laws of the State of New Hampshire (R.S.A. Chapter 41 Section 36), we have examined the books, records and accounts of Linda Fisher, Tax Collector of the Town of Hancock, New Hampshire for the period January 1, 1987 through March 10, 1987, and as a result of our examination submit the following attached exhibits as listed in the accompanying table of contents.

Our examination was made in accordance with generally accepted auditing standards and, accordingly, included such tests of the accounting records as we considered necessary in the circumstances.

In our opinion, the accompanying exhibits present fairly the activity in the accounts of Linda Fisher, Tax Collector, arising from cash transactions for the period then ended on a basis consistent with that of the preceding year.

 TOTAL	 2,508,900

HANCOCK FIRE DEPARTMENT

1987 was a very busy year for the department. We not only had more calls than ever this year, but we also did a study on what we feel the department needs now and in the future years.

We had 115 calls for the year.

53	Rescue
5	Fire
26	Mutual Aid
14	Chimney Fires
13	Miscellaneous
4	Flood Watch

Members of the department would like to thank all of the people who donated to our rescue truck fund. With your donations, we were able to raise over \$22,000 during the month of December. We originally purchased the rescue truck with money that we raised. We feel that we would like to keep the purchase of rescue trucks done in this manner, being bought with donations and money that we raise.

The new rescue truck has been ordered and we hope it will be in service by the first of April.

Robert W. Kierstead, Fire Chief

REPORT OF TOWN FOREST FIRE WARDEN AND STATE FOREST RANGER

Between July 1986 and June 1987, we experienced fewer fires than normal. The three leading causes of forest fires were again children, fires kindled without written permission of a Forest Fire Warden and debris burning. All causes are preventable, but only with your help.

Please help our town and state forest fire officials with forest fire prevention. Contact your Forest Fire Warden for more information.

Enforcement of a state timber harvest regulation is the responsibility of State Forestry officials. Our state has excellent timber harvest regulations; however, your assistance is needed.

If you know of a logging operation and suspect a state timber harvest tax law may be violated, call your Forest Fire Warden, or Concord Forest Protection Headquarters at (603) 271-2217.

If you own forest land, you became responsible for the timber tax payment starting April 1, 1986. This is a change in the Timber Tax Law that will impact all forest landowners. Contact your Board of Selectmen for timber tax forms.

FOREST FIRE STATISTICS - 1987

Number Fires Statewide	403
Acres Burned Statewide	189
Cost of Suppression	\$44,682
District	
Number of Fires	128
Cost of Suppression	\$8175.27

HANCOCK 1987

On the national scene, the world heard the testimony of Lt. Col. Oliver North and others concerning the Iran-Contra affair, listened to hearings which turned down the Bork and Ginsberg nominations to the Supreme Court and were shocked in October when the stock market took its worse decline since the crash of 1929.

Locally, controlling growth, with its many ramifications, was the foremost issue in the minds of area residents, both in Hancock and surrounding towns.

Hancock's 1987 history began with a ribbon-cutting ceremony for the opening of its new post office in the former Grange Hall.

Rev. Graham Ward was officially installed as the minister of the First Congregational Church of Hancock at special services of recognition in mid-January.

Thomas Rhines retired as a member of the Hancock Planning Board after 15 years of active service to the town.

The third year of "Great Decisions" discussion programs was sponsored by the library, coordinated by Brownie McKinley.

A proposed addition to the town library building was the topic of discussion at public hearings in February. Later at a special Town Meeting in October, voters approved a revised plan which authorized the expenditure of available library building funds for the purchase of the Robert Danielsen property for a library addition and future expansion. Voters also gave selectmen approval to explore a proposed swap of the elementary school and the town office building.

A 60-volume set of The Library of America classics was donated to the town library by the family of Joyce Romeis Laing and an Andrew Mellon Foundation matching grant.

Exterior architectural studies of homes and buildings in Hancock's Historical District were made in preparation for application for inclusion in the National Register of Historic Places.

A number of private land donations to the Harris Center improved Hancock's land protection front. Accepted by the center were 100 acres of woodland near Cavender Rd. from Mrs. Charles Walcott and an easement protecting about 3,000 feet along Old Dublin Rd., as well as scenic meadows, from Mary Garland. A 50-acre lot, the Corrine Hicks property, was purchased by Richard Amidon and Hunt Dowse for minimum density housing, with a permanent conservation easement of about 20 acres along Moose Brook donated to the Harris Center.

Hancock veterinarian, David Ingraham relocated to Peterborough, after a denial by the Zoning Board of Adjustment for a small animal clinic in the residential zone.

A reappraisal of all Hancock property was approved at Town Meeting and completed in the late fall.

The Hancock Library staff developed a story time for preschool children, held on Thursday mornings, and sponsored a summer reading program at the library.

Torrential rains and melting snow caused severe flooding in nearly all parts of town in April. Water flowed through the spillway near Half Moon Pond for the first time since the flood control project was built about 25 years ago.

"Soldiers of the Summit", an hour long documentary about the legendary WW II 10th Mountain Infantry Division, was aired on PBS in April. Hancock resident Harold Stout was a member of that division recruited to fight in the snow-capped mountains of Europe.

Approval for a video rental business at the old post office building on Main St. was granted by the selectmen to Sandra Morrill, as a continued non-conforming use.

Olive and Thomas Rhines were selected as grand marshals to lead the Old Home Day parade. Mrs. Rhines is a Symonds, the family that was the original founder of Old Home Day. A popular event on OHD was a dunking booth which featured prominent Hancock citizens.

The Meals On Wheels program continued to serve at least five Hancock residents. In June, veteran program coordinator Alwilda Jessop turned the program over to Mary Sheehan.

Bob Kierstead sold his interest in the Hancock Toy Shop and the business moved to Dublin. Fire Chief Kierstead continued to manufacture rescue backboards at the Hancock location.

An organ concert by renowned recitalist, Earl Miller was held at the Hancock church in August. A Beethoven piano concert by noted pianist, Ann Schein was scheduled for the first Sunday in the new year.

With the help of the Peterborough Fire Department ladder truck, the town flag pole received a new rope after the old one was cut by vandals.

Approval for a 10-lot subdivision on Old Antrim Rd. was granted by the planning board to B.J. Woodward, subject to certain conditions regarding the cost of improvements to the town roads involved. A "cease and desist" order was issued in December by selectmen, ordering logging operations to stop until road damages were repaired by the loggers.

A "thank you" party was held for Kenneth Jubett, teaching principal of the Hancock Elementary School for nearly 15 years. Jubett left to accept a job as assistant principal in Milford.

Merton Knowles was honored in September by Hancock residents on his 80th birthday with a special social hour in the Vestry following worship services.

Lloyd Thompson, State Highway Patrolman in Hancock, Antrim and Peterborough, retired in September after 28 years of service in that position.

HES students observed the signing of the U.S. Constitution in September at ceremonies which included the ringing of the church bell and the release of 200 red, white and blue balloons.

A six-year old girl, Catherine Davis, turned her shell collecting hobby into a home-business, with all proceeds donated to local conservation groups.

HFD hosted an open house in October, in observance of Fire Prevention week, at which time the auxiliary presented two newly purchased CPR training dolls to the department. In December, the department mounted a successful fund drive to raise \$22,000 to purchase a new rescue truck.

Selectmen appointed Andy Tessier as temporary road agent, following the resigning of Joe Hugron after seven years of service.

A "Mingles" group of about 25 singles and couples in the 20 - 50 age bracket, was formed for the purpose of enjoying sociability and activities.

Major jobs were completed in the Depot Restoration project, including installation of a heating system, renovation of the electrical system, general cleaning and refinishing of the interior walls.

Following a public hearing in December, the planning board adopted a new site plan regulation for non-residential development, aimed at helping to avoid ground and surface water pollution.

LIBRARY TRUSTEES REPORT

During 1987, the Library Trustees and the Library Building Committee continued their efforts to complete a one-story addition to the Library. Preliminary building plans were reviewed with Library volunteers at a meeting on January 27 and two public meetings were held on February 3 and 5.

Reactions to the proposed plans were generally favorable. As a result, the Building Committee continued its work to develop final plans. At the request of the Selectmen and with the advice of counsel, no review of plans was prepared for the Town Meeting since the Trustees were not requesting the appropriation of additional funds. A few voters, however, proposed that the building plans be delayed so that a further study could be made concerning the advisability of building a new library on a different site. Fortunately, the majority defeated this proposal.

In August, final plans were put out for bid and four bids were received by August 21. While the Building Committee was reviewing these four bids, the Danielsen property, located immediately behind the Library, came on the market at a reduced price after being for sale for several months. An analysis by the Building Committee indicated the the Trustees could purchase the Danielsen property and build a one-story wood-frame addition at about the same price as the originally planned brick addition. In view of the many advantages of acquiring the approximately half acre of land in the center of Town, the Trustees and the Building Committee unanimously recommended the purchase. With the agreement of the Selectmen, two informational meetings were held on October 27 and 29 to review the proposal in detail with Hancock citizens. On November 10, at a special Town Meeting, the recommended purchase was overwhelmingly approved by a vote of 150 to 11.

At yearend, the Trustees and the Building Committee are making plans to sell the Danielsen house and garage and provide for their removal from the site through a sealed-bid process. In addition, plans are being drawn up with the expectation that the addition can be completed during 1988.

Howard Mitchell, Chairman
Nancy Adams
Edmond Lapine

HANCOCK TOWN LIBRARIAN REPORT

1987 has brought many challenges to the staff of the library. Plans for the proposed expansion and remodeling have taken many hours of study and it is hopeful that 1988 will be the year of the addition. This will provide space for expansion of the collection of adult and childrens' books, an area for computers, adequate space for the elementary school and preschool reading programs and a restful adult reading area.

Icy Lent, Marge Hastings, Sue Roper and Mary Ann Hitchcock staff the library and Fran Russ, Betty Gunther, Thelma Babbitt, Lewis and Marjorie Tuttle, Dot Grim, Mary Ann Auth and Joan Kunhardt volunteer their services on a regular basis.

Reading programs are provided for all grades of the elementary school, the Hancock Preschool and a group of three to five year old children. The library sponsored an appearance of the Little Red Wagon in July, the annual Old Home Day Book Sale was held in August and currently a Great Decisions discussion group, organized by Brownie McKinley, is meeting in the library.

CONSERVATION COMMISSION REPORT

In 1987 the Conservation Commission (a discussion/guardian group overseeing Hancock's forests and wetlands) received more conservation easements, including 17 acres from the Hunt Dowse-Richard Amidon subdivision along Moose Brook, and 65 acres from Alwilda Jessop, at Route 202 and Forest Road. Additionally, Mary Garland gave a 60-acre easement to the Harris Center to protect a potential groundwater supply should Juggernaut Pond become obsolete.

The Commission sponsored nature walks at the old Elmwood Junction site and at the Walcott property on Kimball Road. Clean-up Day went off as usual, and the Commission also contributed to the regional Home Toxic Waste Collection Day, thanks in part to Hancock's Mark Schaal.

Late in 1987, the Conservation Commission helped prepare a warrant article to seek authorization for their task force to accept matching funds for land preservation--courtesy of the Trust for New Hampshire Lands. For this project, member Bruce Hedin made several large, detailed maps suitable for current as well as future uses.

HANCOCK PLANNING BOARD REPORT

In 1987 the Planning Board increased the number of regular meetings to two per month. This action allowed the Planning Board to devote additional time to furthering the primary duties of the board as well as to handle the anticipated increase in subdivision and boundary line adjustment workload. During the year we processed three subdivision applications and three applications for boundary line adjustments. In addition, we adopted Site Plan Review regulations for non-residential developments; we proposed amendments to the Land Subdivision Control Regulations; and, we adopted Septic System Siting and Wetland Identification Utilizing High Intensity Soil Surveys for Plat Layout relative to major subdivisions. We likewise adopted Control of Soil Erosion and Sedimentation in the development of land. Much of our additional time was devoted to problem solving and significant work on a viable Capital Improvement Program.

The 1988 warrant introduces a change to the Hancock Zoning Ordinance which defines and permits activities associated with Home Based Businesses.

Our membership in the Southwest Regional Planning Commission has aided immeasurably by utilizing their services to intelligently plan and formulate our goals.

RESULTS OF 1987
FIRE DEPARTMENT STUDY

A study started in January 1987 was conducted by the fire department. The purpose was to review the town fire department and general fire department protection system. Consideration was given to trends, difficiencies, and the needs and alterations in the future.

The main areas of study were:

1. What are the needed fire flows?
2. Water supply in all of the town.
3. How do we supply the needs?
4. What do we have for equipment?
5. What is needed to supply these needs?
6. When do we replace equipment?

The results that we found to these questions are:

1. The Insurance Service Organization came into town approximatley three years ago to test our trucks and to look at the needed fire flows on Main Street. Their finding was that the median fire flow should be 1700 gallons per minute, the low being 1000 GPM, and the high being 3000 GPM.

In areas outside of the Main Street and main part of town the houses are much further apart and the GPM goes down. The water needed is 750 to 1000 GPM depending on the size of the house and the materials used for finish.

2. We checked the fire hydrants for water flow with the following results. In front of the grade school 498 GPM, Depot Street and Rte 123 - 372 GPM. Middle Road and Rte 137 - 203 GPM, Wilder Raod 174 GPM. To be of any help you should have at least 300 GPM. There are many brooks and ponds in the areas of the hydrant system that could be used in the summer, and could be used in the winter with the use of dry hydrants.

3. Water supply: Main Street- If we used the water supply in our truck (3750 gallons), and drew from a hydrant (400 gallons) we would have a 5½ minute supply of water pumping at 1000 GPM. Then we would be just on the hydrant system until we could refill our trucks or until Mutual Aid arrived. Mutual Aid will take at least fifteen minutes in the day time and longer at night.

To help solve this problem we tried pumping two trucks into a 4" line, and at the end of 1500' we had 900 GPM. This, along with the hydrants would give almost enough water for most of the calls. To run a line from the fire scene to the pond and start pumping would take at least 10 to 12 minutes depending on the time of day and the time of year. The results are that we need to carry more water with us to fill in the 5 to 12 minute time span of not much water (only from the hydrant).

Water outside of Main Street: This is an area of great concern, to drive our tank truck from the station to the top of Prospect Hill or to the end of North Road takes 7½ minutes if you are already in the truck. With some of the long narrow driveways and long rights of way that we are getting in town, it is almost impossible to get the trucks in and out of the driveways if we have to shuttle tank trucks in and out. We have looked at fourteen possible sites for dry hydrants. These would be very helpful in the summertime. We are not sure how they would be kept clean in the winter so that they would be usable.

The results seem to be that the use of 4" hose to lay in the driveway to pump water thru, and the ability to carry more water for use while setting up a tanker shuttle, and while waiting for Mutual

Aid to arrive are a must.

4. At present we have the following equipment:

- 1-1965 International pumper. 750 gallon capacity
- 1-1973 GMC tanker 2000 gallon capacity
- 1-1985 Ford pumper 1000 gallon capacity
- 1- rescue truck. Being replace with donations
- 1-Army forestry truck
- 1-Jeep owned by N.H. Forestry
- 1-rescue boat, bought by the department

5. To supply the water that is needed in all parts of town, we feel that there is an urgent need to purchase a new 2000 gallon tank truck, and to purchase 1500' of 4" hose and the fittings needed to use with it. The new tank truck would help fill in the needed water supply until other help arrives. Also it would give us another truck to get the tanker shuttle started with much sooner. The 4" hose would give us greater capabilities of handling the water problems on Main Street, and the problems of the long narrow driveways and the narrow roads out of town.

The town is growing at a fast pace and all of the growth is three to five miles from the station. For instance, at last count on North Road there were 33 houses; and, on Longview Road and Shady Lane there were 30 houses. This alone shows the need for more water carrying capacity.

6. The replacement schedule, in our belief, should be as follows:

- 1. New additional tank truck in 1988
- 2. Replace 1965 International in 1995(it will be 30 yrs old)
- 3. Replace 1973 Tank truck in 2000 (it will be 27 yrs. old)
- 4. Replace 1985 Ford in 2005 (it will be 20 yrs. old)

Starting in the year 2005, we should start to replace a truck every five years so that they do not get over 20 years old.

Our study will go on as we are now mandated to look at hazardous materials. As our study goes on we will be looking at the types of materials used by businesses and others. We will be keeping a record of what the businesses have and how and where it is stored. Hazardous materials can be paint thinners, gas, oils, pesticides, insecticides and every day cleaners, to name just a few. At present we are looking into a 350 pound dry chemical unit that would work on over 90% of all hazardous materials fires. It will also work well in a small room fire, chimney fires, and electrical fires.

REPORT OF THE BUILDING REVIEW COMMITTEE

Town Offices At The High School Building

The town offices are in a brick building that was built in 1917. The building is located on a small road that connects School St. to Route 137. It is in the center of the town recreation area.

To enter the building from any of the three doors, you must go up a half flight of stairs, holding on to a wobbly railing. there is no handicap access. All offices are on the upper level. The space has been allocated as follows:

Tax Collector	14'x17'	back left corner of building
Selectmen	19'x15'	front left corner of building
Administrative		
Assistant	15'x15'	front left of building
Thrift Shop	29'x40'	back center of building
Town Clerk	14'x15'	front right of building
Marking Room		
Of Thrift Shop	15'x19'	front right corner of building

The lower level is accessed by two 5' wide side stairways. The space allocations are as follows:

Boys' Rest Room	11'x14'	back left corner of building
Girl Scouts	25'x14'	front left corner of building
Gym	30'x40'	back center of building
Coal Room	19'x15'	front center of building
Utility Room	16'x15'	front center of building
Girls' Rest Room	14'x15'	back right corner of building
Water Dept.	19'x14'	front right corner of building

The exterior of the building is in good condition. The slate roof is checked regularly and is in good condition. There are aluminum storm/screen combinations on all windows. Some of the windows need their pulley systems repaired and a few glass panes are broken. A column at the entry is in need of repair and the window sills should be scraped and painted. The parking is random and inadequate.

The inside of the building is heated by an oil hot water system. The furnace was purchased in 1970 and is running fine. the heat distribution throughout the building is satisfactory.

The electrical, telephone and fire alarm systems should be updated over time. The electrical system has been upgraded only as need arises and there is still a need of more outlets and better lighting in the Town Clerk's office. The telephone system is adequate at the moment. The fire alarm system has no sprinklers.

All offices with the exception of the Tax Collector's are in need of cosmetic repair. Peeling wallpaper, cracked and dirty walls, and water-stained shades do not create a pleasant working environment.

On the lower level, there is one sink, one stall and one urinal in the boys' rest room. In the girls' rest room there is one sink and two stalls. Both facilities were dirty and in need of upgrading.

Aside from general maintenance, the gym floor is in good condition. The banister that separates the gym from the upper walkway is a threat to young children. It should be replaced or fixed so that no one can sit on the ledge.

The Girl Scouts have maintained their meeting room.

The other rooms on the lower level are adequate for storage.

Apart from the poor physical condition of the building, a far more serious condition exists. The office spaces in the building are no longer adequate for the primary administrative functions they were intended to serve or for the expected growth in administrative services. In the opinion of the Committee, making more office space available in the right configuration for each office activity would require extensive changes in the layout of the building, including the accessibility of such new space to the handicapped.

An inspection of the various office and meeting rooms clearly shows how present day office activity has outgrown the spaces available. These core activities are administrative services, selectmen and town board meetings, and the activities of the Town Clerk, Tax Collector, Police and Water Departments. A few examples, given below, will illustrate the inadequacy of the existing office space.

In the Administrative Office, occupied by Mrs. Caverly and her part-time Assistant, there is barely enough space for the two desks, the computer and printer, the Xerox copier, a large typewriter, a large safe and a supply closet. The room is also inadequate for receiving the public. The room thus requires considerable expansion from its present size of 15'x15' to assure more efficient operations.

In the Selectmen's meeting room, next to the Administrative Office, the same overcrowded conditions exist. This room is not only a meeting place for the Selectmen and the other town boards, but it is a hearing room for the public, a storage room for the overflow file cabinets from the Administrative Office and a place for the bulky cabinets containing the town tax maps. Again, the solution is to expand the size of the room for meeting purposes and to relocate the filing and storage cabinets into the offices where they belong.

The History Room, across the hall from the Selectmen's Room, is a multi-purpose room containing a large conference table for public board meetings and a desk for the Tax Collector. In addition, there are large built-in cabinets for town office files and a lockable closet containing the Tax collector's records. Basically, the multiple functions of this room are incompatible and separate space should be found for each activity to avoid the conflicts in scheduling. Once this is recognized, the problem then becomes one of finding space elsewhere in the building for it. The choices are meager.

The Town Clerk and his assistant occupy a room measuring 14'x15' which is too small for their functions and storage requirements. The same is true for the Police Chief's Office.

In the opinion of the Committee, the Town Office Building no longer serves as the best office and meeting available in the town for routine public and governmental activities. We, therefore, recommend that the town investigate switching the Town

Office Building for the elementary School.

HANCOCK ELEMENTARY SCHOOL

The present school is situated in the center of Hancock across from the Congregational Church. The three story building consists of six main rooms, two on each floor. There are also smaller rooms used as storage, closets and bathrooms.

On the first floor there are two main classrooms. the Readiness classroom, on the right, is approximately 600 sq ft and is able to contain up to 15 students. Currently there are 10 pupils thereby operating at 67% capacity.

The first grade, on the left, is approximately 900 sq ft and is able to contain up to 24 students. Currently grade one has 12 pupils, operating at 50% capacity.

Also located on the first floor are two bathrooms. These bathrooms were renovated in 1985 so they are in good condition. there is also a small teacher's bathroom, in fair condition, and storage area on the first floor.

The staircase that allows access from the first to the second floor is winding and difficult to negotiate. On the second floor, the second grade and the combination third/fourth grades are located. There is also a small kitchen work area and a small room which is used for remedial teaching and Chapter One programs. grade 3/4, on the right, is approximately 726 sq ft and is able to contain up to 24 students. Currently there are 28 pupils, operating at 117% capacity. Grade 2, behind the kitchen area, is approximately 676 sq ft and is able to contain up to 24 students. Currently there are 25 pupils, operating at 104% capacity. Total school capacity is at 86%.

The basement has two general purpose rooms, the library and the music/gym room. The library, on the right, is approximately 600 sq ft. Off to the side is the boiler room where the heating unit for the school is located. The heating system is in fair to good repair.

The music/gym room, to the left, is approximately 500 sq ft. There is a bathroom with a toilet and sink located off this room. There are also two other smaller storage areas located in the basement.

The school interior is generally in good repair and has custodial service after every school day. The exterior has been recently resided and a new roof was installed in September 1987.

There is in place a fire alarm system throughout the building, although there is no sprinkler system. the fire escape at the rear of the building is in fair condition.

Currently the school is used only for school related functions and is not open to general use by the Town. There is ample parking around the green in front of the school.

The playground behind the school is situated at the base of a steep slope and is inadequate for the children, due to the number of children and the type and condition of the play equipment. The children also play on the Green in front of the school. this area is also considered unsafe because it borders a state highway and a well traveled town road. Therefore, stray balls and wandering children are always a real and present danger.

The playgrounds are town owned land because the school building itself and only the land it sits on is owned by the Conval School District.

The Hancock elementary School is not handicapped accessible and is approaching capacity. It is estimated that in the very near future, it will be inadequate to handle the student population from Hancock.

The Future Use of the Elementary School

Having come to the decision to recommend the switch of the Town Office Building for the elementary School, the committee felt it advisable to include some suggestions for the possible use of the rooms in the school. It is by no means meant that all our suggestions must be used or that other recommendations could not be forthcoming from the Selectmen or other interested parties.

In the basement the function room on the left would be ideal to house the Police Dept. An access door could be installed where the window now is and a partition could be erected allowing for two separate rooms. These rooms could be the Chief's office and a booking room. The storage room to the left could be utilized for secure evidence storage with access from the Chief's office and the Department would have its own toilet facility. the present door between the two downstairs rooms could remain but should be secured from the police side.

The present library would lend itself neatly for a public meeting room for smaller groups and those groups requiring handicapped accessibility.

The furnace and storage rooms would basically remain unchanged. the storage room would be an expanded area for much needed unsecured storage of files such as the archives of the town.

The first floor with entrance from the ground level on the Main St. could be made handicapped accessible by the addition of a ramp to the present steps. The entry would be left unchanged.

The first floor teachers' room could be used for secure storage of necessary town records. this could be done by removing the lavatory and making the area secure.

The room to the right, facing Old Dublin Rd. could be made usable for the Town Clerk and Tax Collector. The division of the room should be decided by those who will be using it. We do feel that consideration should be given to placing some counter dividers to separate the working area from the public area.

The larger first floor room on the left would be utilized for the Selectmen's

assistant and the Selectmen's meeting room. This room is brighter and more spacious, thus allowing more room for the computer and the many files needed. Again, the exact room division should be left to the Selectmen and Mrs. Caverly since they will be working here. The Committee urges the use of counters to divide the public access from the working area.

The second floor would be left basically the same and would be used as multi-function rooms. Possible uses would be for Girl Scouts, Cub Scouts and any other meeting not requiring handicapped accessibility.

Again, these are suggested uses. any permanent uses should be made by the Town officials who will be using this building and all costs will have to be considered before the ultimate change is made.

HIGHWAY DEPARTMENT

The Town Garage consists of two buildings. The wooden three stall building is 37 years old and is in fair condition. It measures 36'x44' and houses the office as well as toilet facilities. The entire building is heated.

The five bay garage was constructed in 1978 and is in excellent condition. The building has aluminum siding and three of the bays are insulated and heated. Each bay measures 15'x47' and one bay has a work pit in it.

Currently there are four people working for the Department. At present there is enough storage space for equipment and it is not likely that there will be any major purchases in the near future that will require space. The facility cannot be used for any other function.

The Committee recommends that the office and toilet facilities in the old garage be improved. The whole building is a heat sink. The cinder block foundation is very cold and there is a problem with the water pipes freezing every winter. The windows are only single pane. They leak and there are even rags used to close up the holes. The doors, which are in dire need of paint, are very loose and even daylight can be seen around them. As a result the furnace, which is in good condition, runs constantly but is not able to warm the building.

There are two options available to solve the problems. In both cases the last two bays of the new garage need to be insulated and heated to compensate for the loss of the heated bays in the old garage.

1. Use the old garage only as cold storage.

This option would partition off an area in the first and second bays of the new garage and move the office and toilets there. However, there might be a problem in hooking up to the septic system, which is behind the old garage.

2. The office and toilet could remain in the old garage and be enclosed and insulated.

This option would permit the rest of the old garage to be a cold storage area and result in more efficient heating of the office space. First the cinder block walls should be insulated on the inside with 2" of styrofoam and a new wall constructed. The windows would be replaced with thermopanes. the ductwork of the furnace would be rearranged so that only the office and toilet areas were heated.

The committee recommends the second option since the present office space is adequate and the plumbing systems are already in place. It would be a modest outlay to upgrade the existing facility. Also, the insulation and heating of the last two bays in the new garage would be needed with both options.

THE OLD FIREHOUSE

The old firehouse is situated directly behind the Hancock Market. The main floor of the building is approximately 40'x35'. the cellar beneath it is approximately 34'x14' in area. The building does have a furnace and is heatable. However, due to poor insulation, it would not be very economical to heat the building.

The exterior of the building is in fair condition. However, if it were to be maintained properly, some moneys would have to be spent to upgrade it.

Currently the only use for the old firehouse is that of storage. It contains various items form the Fire Dept. and other organizations in Hancock. The building does not lend itself toward a meeting place. The old firehouse is adequate for use as cold storage. However, the Committee feels that most, if not all of the items in storage could either be disposed of or relocated to a more suitable space, such as the horse sheds.

The Committee sees three options available for the building.

1. Maintain the building.

If the old firehouse was to be maintained by the Town, it should be cleaned up and repaired where needed. It could be kept as a storage facility or possibly as the town's chlorination station. A drawback however, is the location of the building and the right of way which one must travel to reach it. Traffic is heavy on that right of way and only assumed to get heavier as years pass. Therefore if kept, the old firehouse hopefully should not add any significant traffic to the roadway.

2. Move the building.

The Committee briefly considered the option of moving the building to a new location. The condition of the building, the expense of the move, the site preparation costs and subsequent repair costs made this the least acceptable option.

3. Sell the building.

This seems to be the most reasonable option to the Committee. Items of historical interest (ie. hearse, old hand pumper, etc.) could be stored in the horse sheds and the rest of the contents disposed of. The building could be sold and the proceeds used to build a new cold storage garage behind the new Fire Department. Here the Fire Department's boat, forest vehicle, old pumper and other items could be stored thus, eliminating future space problems.

The Committee in suggesting a sale has not gone into the question of how the building is zoned and what uses are permitted in the event of a sale.

THE NEW FIREHOUSE

The new Firehouse, completed in 1979, is situated on a parcel of land on the westerly side of Route 137 adjoining the entrance to the Town dump. This nine acre parcel was deeded to the Town on September 8, 1980 by Elijah J. West on condition that it be used for a fire station and related buildings and no other structure, with a reverter of the building and a two acre portion of the parcel back to Elijah J. West and his heirs if the building should cease to be used as a fire station.

The building is a one-story structure built on a concrete

slab. The primary space is a large equipment and vehicle bay, 60'x48', in which all the fire vehicles and related equipment are housed, including a rescue boat, a forestry truck and a 1945 Mack pumper truck. From the front, access to this bay is through three large automatic overhead garage doorways and from the rear through a doorway at grade level and one overhead garage doorway. In addition, the other rooms in the building are:

- meeting room 36'x15'
- two bathrooms each 8'x12'
- Chief's office 12'x9'
- utility and storage room 14'x16'

There is ample off-street parking on the southerly side and in the rear of the building as well as on the gravel driveway on the northerly side of the parcel.

The Committee found the building to be in excellent condition and to be carefully maintained and clean throughout. Fire officials estimated that the structure, as a firehouse, will be adequate as such for the next 10 to 15 years, provided that room can be found in the equipment bay for any additional vehicles that may be needed in that time period. To make room as needed, may require the shifting of seasonal equipment, such as the rescue boat, forestry truck and the Mack pumper out of the equipment area, to an inexpensive garage structure, yet to be built in the rear of the building.

Since all rooms in this building are on grade, the building is ideally accessible to the handicapped. For that reason, the equipment area, measuring 60'x48', with a seating capacity of up to 300 persons, has been used for the last several years for the annual Town meeting. For the same reason, the adjoining meeting room, with a capacity of 50 to 60 persons has been used frequently throughout the year for public meetings of the Town Planning Board, Conservation Commission and the Advisory Board. In addition, the building is an emergency facility with modern passive solar heating for the bay with propane forced air heating for the entire building as needed and with emergency generators.

The Committee finds the new firehouse adequate in all respects and recommends that it be continued in its present uses.

THE TOWN HALL

The Town Hall is situated in the Hancock Congregational Church Building, directly below the main body of the Church. The Town Hall is in good condition and measures approximately 42'x45'. There are two bathrooms, both with a toilet and a sink, and two storage areas. Also located in the Town Hall is a stage with a hand painted stage curtain that was refurbished for the 100th Old Home Day festivities. The building is not handicapped accessible and parking is adequate around the oval directly across from the Church.

Currently the Town Hall is mainly used for the Hancock Preschool. The school operates Monday through Friday, running from September through May. Maintenance is done once a week by the Preschool parents.

Other uses of the Hall include federal, state, county and town voting as well as occasional use for dances, auctions, Girl

Scout ceremonies, theater workshops and school programs. The Town Hall is also the only building owned by the town that has a stage built into it, making possible plays, concerts and drama workshops.

In addition to providing an alternative meeting area and housing the Preschool, the Town Hall has historical significance. It is one of the few combination Church/Town Hall buildings left in New England, thereby being a historical exception to the separation of Church and State.

The Committee is aware that to maintain the Town Hall is costly, but in order to maintain historical precedence, our cooperative preschool program, a place for the town to vote, and an alternative meeting site, we suggest that the Town Hall be kept by the town. The issue of selling it to the Church should be tabled for a period so that no quick sale would result in regret at a later date.

THE TOWN HOUSE BELFRY

The belfry of the Church houses our historical Paul Revere bell and our town clock. The clock is maintained by clock keeper, Robert Fogg, who feels that the belfry and the room for housing the clock gears are in satisfactory condition. Mr. Fogg can see no immediate need for repairs or other expense other than routine maintenance.

The Committee therefore recommends continuing the current arrangement for the Town Clock and belfry.

THE HORSESHEDS

Situated behind the Church, the unique semi-circle of horsesheds have been a partially forgotten Town building. They are used mainly for minimal storage by the recreation, water, and town cemetery departments. There are nineteen sheds measuring approximately 16'x10'. Of the nineteen, six are now enclosed and used as follows:

#1 and #2 are bathrooms with #2 non-functioning

#3,4,5,6 are storage for cemetery and water department materials and equipment

The remaining stalls are open. Three are used for storing the recreation department's docks and raft during the winter months. The remaining ten stalls are open and are presently not used.

It is the opinion of this Committee that immediate attention be given to removing the trees around the foundation of the building, inspecting the slate roof and doing necessary repairs. We find that with minimal work, the remaining sheds could be enclosed and used for some of the Town's storage needs. By making these sheds secure, room would be made for the hospital aid equipment, the town hearse, the water department equipment, the hand hose reel and the hand pumper. This would become especially necessary if the town sells the present town hall and/or the old firehouse.

This Committee feels the Town should preserve these historic horsesheds and gain some much needed storage space.

THE LIBRARY BUILDING

At this time, a substantial addition to the existing library has been planned and approved by the voters and is to be funded by private bequests and donations already in hand. For this reason, the Committee has determined that most questions concerning the library's existing and future space requirements have already been addressed by the building program now in progress. While it is true that a special Town Meeting is scheduled for November of this year to seek voter approval of the library's acquisition of the Danielson property to be used for the addition, this Committee is unable to predict the outcome of the vote or the impact of the vote on the building program. Nor were we charged to weigh the building program in light of the fact that the voters have previously decided to issue.

Suffice it to say that the present library is a brick structure in the center of town and falls within the historic district. Access to the building requires the ascent of a flight of 4 or 5 steps to reach the main floor. One enters a main lobby and reception area marked off by a counter for the transaction of library business. To the left and to the right of the lobby are two large rooms, each measuring 24'x28'; these rooms were added by the expansion of 1924 and are on grade. They are referred to as the New Book Room (on the left) and the Children's Room (on the right). Behind the counter, as part of the original building, is the Middle Room which serves as a reference room and as a meeting room when the library is not open for business. Directly behind the Middle Room, through an open doorway, is the library stack area. Directly below the Middle Room, accessible by a flight of stairs, is the boiler room which also contains book stacks to which the public does not have access. The building also has an attic which is not open to the public. There is no off-street parking for the patrons of the library.
